

VERSION 5.0

# IOSH Managing Safely

*Building Safety Awareness. Strengthening Management Capability.*

# Course Overview

The **IOSH Managing Safely** course is designed for managers, supervisors and other professionals who have responsibility for people, resources or workplace activities.

The course provides practical knowledge to help learners understand workplace hazards, assess and control risks, recognise their safety responsibilities, investigate incidents and contribute to improved safety performance.

Delivered by **NIST Global**, the programme combines experienced HSE trainers, practical workplace examples and structured learning support to help learners apply safety principles confidently in their roles.

**Building Safety Awareness. Strengthening Management Capability.**

# Why Choose NIST Global?

## First to Launch IOSH Training in India

NIST Global introduced IOSH training in India and has built extensive experience delivering international safety programmes, without compromising on quality.

## 18+ Years of IOSH Training Experience

A long-standing association with IOSH training delivery since 2008.

## 17,000+ Professionals Trained

Professionals from diverse industries have been trained through NIST Global's IOSH programmes.

## 1,050+ Batches Delivered

Extensive experience in delivering IOSH training across different learner groups and industries.

## Experienced HSE Trainers

Learn from trainers with practical industry experience across workplace health and safety.

## Practical, Learner-Centric Training

Real workplace examples, discussions and practical application help connect course concepts with day-to-day responsibilities.

## Internationally Recognised Certification

Successful learners receive the IOSH Managing Safely Certificate.

**Choosing the right learning partner can make a difference to your learning experience and preparation.**

# What You Will Learn – Course Syllabus

IOSH Managing Safely focuses on the practical management of workplace health and safety.

## MODULE 1

### Introducing Managing Safely

Understand why workplace health and safety should be managed and the role managers play in achieving safer outcomes.

## MODULE 3

### Controlling Risks

Learn how risks can be controlled effectively using appropriate workplace controls.

## MODULE 5

### Understanding Hazards

Identify common workplace hazards, understand their potential impact and consider appropriate controls.

## MODULE 7

### Measuring Performance

Understand how safety performance can be monitored and how effective health and safety management can be supported.

## MODULE 2

### Assessing Risks

Understand how to identify hazards, assess risks and determine appropriate control measures.

## MODULE 4

### Understanding Responsibilities

Understand the responsibilities of managers and others in maintaining workplace health and safety.

## MODULE 6

### Investigating Incidents

Understand how incidents can be investigated to identify causes and support preventive action.

**Together, these modules provide a practical foundation for managing health and safety as part of everyday workplace responsibilities.**

# Learning Outcomes

On successful completion of the course, learners will be able to:

- ✓ Describe the key reasons to manage safety and health in the workplace.
- ✓ Define key terms relating to safety and health.
- ✓ Identify how the law can have an impact on safety and health in the workplace.
- ✓ Describe how to assess, reduce and control risk in the workplace.
- ✓ Identify workplace hazards and risks, their impact and how to manage them.
- ✓ Identify how to evaluate and respond to an incident.
- ✓ List the benefits and characteristics of an effective health and safety management system.
- ✓ Describe the principles that underpin good safety and health performance.

# Training Methodology

Learning at NIST Global is structured, interactive and practical, with training designed to suit entry-level and working professionals.

## Virtual Instructor-Led Training

Live online sessions with experienced HSE trainers, enabling learners to participate in discussions, ask questions and apply course concepts through workplace examples.

### EVENING BATCH

|                                                                                                                                             |                                                                                                                              |
|---------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------|
|  <b>TIME</b><br><b>07:30 p.m.</b><br><b>– 10:30 p.m.</b> |  <b>DURATION</b><br><b>6 Days</b>         |
|  <b>TRAINING DURATION</b><br><b>21 Hours</b>           |  <b>LEVEL</b><br><b>Basic / Level 2</b> |

*The evening schedule allows working professionals to pursue the programme alongside their regular professional commitments.*

# Learning Support

Learners receive structured support throughout the programme.

## Learning Resources

- ✓ Digital course materials
- ✓ Course presentations and reference resources
- ✓ Workplace examples and case studies
- ✓ Revision support

## LMS Access

Learners receive access to NIST Global’s Learning Management System to support their learning and assessment preparation.

## Assessment Preparation

- ✓ Assessment guidance
- ✓ Practice and revision support
- ✓ Trainer guidance
- ✓ Examination instructions

# Who Should Take This Course?

IOSH Managing Safely is suitable for:

**Managers**

**Supervisors**

**Team leaders**

**Directors**

**Owners of smaller  
organisations**

**Engineers and safety  
professionals**

**Personnel who need a  
basic understanding  
of health and safety  
management**

*The course is suitable  
for professionals  
across industries and  
sectors.*

# Assessment & Certification

The IOSH Managing Safely assessment evaluates learners’ understanding and practical application of the course. To be eligible for the Managing Safely certificate, delegates must attend all seven modules. Candidates are evaluated via multiple choice questions and workplace risk assessment project.

## Part A: Multi-Format Assessment

Participants complete a multi-format assessment covering knowledge and comprehension of the course content.

MAXIMUM MARKS

60

MINIMUM REQUIRED

36/60

## Part B: Workplace Risk Assessment Project

Participants complete a workplace risk assessment to demonstrate practical application of their learning.

MAXIMUM MARKS

38

MINIMUM REQUIRED

23/38

## Overall Requirement

Participants must achieve a **combined score of 60 or more**, in addition to meeting the minimum requirements for both assessment components.

# Online Examination

For individual learners, the assessment will be conducted through the NIST Global Learning Management System (LMS) with online proctoring, providing a structured and monitored examination environment.

Successful completion leads to the **IOSH Managing Safely Certificate**.

# What You Can Do After This Course

---

On completion of IOSH Managing Safely, learners can apply their knowledge to:

- ✓ Recognise workplace hazards and risks.
- ✓ Support workplace risk assessments.
- ✓ Apply appropriate risk control measures.
- ✓ Understand and fulfil safety responsibilities.
- ✓ Participate in incident investigations.
- ✓ Contribute to workplace safety communication.
- ✓ Support safety performance monitoring.
- ✓ Promote safer working practices within their teams.

# Course Benefits

---

This course helps learners to:

- ✓ Build essential knowledge of workplace health and safety management.
- ✓ Develop practical risk assessment and risk control skills.
- ✓ Improve understanding of workplace hazards and responsibilities.
- ✓ Strengthen confidence in managing safety within their role.
- ✓ Contribute to a positive workplace safety culture.
- ✓ Gain an internationally recognised IOSH certificate.
- ✓ Build a foundation for further health and safety learning.

## Further Progression

IOSH Managing Safely can provide a foundation for further learning in occupational health and safety.

## Next Learning Pathways

**NEBOSH International General Certificate in Occupational Health and Safety (IGC)**
