Strengthen Your Expertise.

Advance Your Career.

Contribute to a Sustainable Future.

About ISEP

UK's leading environmental and sustainability body, the Institute of Sustainability and Environmental Professionals (ISEP), is the global membership organisation for individuals committed to driving sustainable change across government, business and society. ISEP sets the benchmark for sustainable leadership, skills, knowledge and professional practice to empower environmental specialists, sustainability generalists and emerging changemakers through evidence-led insights, world-class training and robust professional standards.

Course Overview

This course is specially designed for those who aspire to build their careers and are looking for recognition in the domain of environment or sustainability. And also, for those who need a solid understanding of key sustainability principles to apply in their current roles, who aren't necessarily environmental experts. Across the globe, the drive toward sustainability and the desire for green skills have been increasing day by day; this course is ideal for providing participants with a foundation of environmental and sustainability knowledge to build on. To provide an understanding of the breadth of the sustainability agenda, this course covers a wide range of environmental, sustainability, and governance principles, along with the management tools and skills that they will need when working within this area. Upon successful completion, this course leads directly to ISEP Associate Membership.

Target Audience

- People who are starting out, or changing to, a career in environment or sustainability focused roles
- Professionals from other areas (such as marketing or finance) who want a foundational understanding of sustainability for use in their work

Prerequisites

- None. There are no formal entry requirements

Course Benefits

- Aids to qualify for one-year ISEP Associate Membership upon course completion and passing the exam
- Enhances your career with improved sustainability knowledge and practices
- Instils practical skills to implement sustainable practices in your organisation
- Demonstrates commitment to environmental sustainability to stakeholders
- Contributes to organisational efficiency, innovation, and resilience through sustainable solutions
