

ISEP Environmental Sustainability Skills for the Workforce

Empower Every Employee.

Transform Every Workplace.

Build a Sustainable Future.

About ISEP

UK's leading environmental and sustainability body, the Institute of Sustainability and Environmental Professionals (ISEP), is the global membership organisation for individuals committed to driving sustainable change across government, business and society. ISEP sets the benchmark for sustainable leadership, skills, knowledge and professional practice to empower environmental specialists, sustainability generalists and emerging changemakers through evidence-led insights, world-class training and robust professional standards.

Course Overview

The purpose of this course is to provide a practical introduction to environmental sustainability, helping participants build the knowledge, understanding, and motivation needed to make a positive difference within their organisation. In order to establish a fundamental insight into the awareness of environmental and sustainability issues, the course focuses on environmental risk and opportunity, resource efficiency, pollution impact and control, legislation, and transportation impact. With just one day of focused learning, participants can see measurable improvements in their performance and contribution to environmental sustainability.

Target Audience

- Participants working in any job role across all sectors
- Operational-level employees aspiring to strengthen sustainability understanding

Prerequisites

- None. There are no formal entry requirements

Learning Outcomes

Upon successful completion of the course, learners will have the:

- Knowledge and understanding of the main environmental and economic risks/opportunities.
- Awareness on compliance obligations and business drivers for change.
- Expertise on the main potential impacts on environment and sustainability.
- Understanding of how to improve environmental performance.
